

EPILATION AFTERCARE SHEET

THE HEALING STARTS IMMEDIATELY BUT THE TIME OF COMPLETE HEALING WILL VARY

ON COMPLETION OF YOUR TREATMENT A COLD COMPRESS WILL BE APPLIED TO THE AREA FOLLOWED BY A THIN LAYER OF AFTERCARE CREAM, THE AREA TREATED SHOULD NOW BE LEFT ALONE TO ENSURE NATURAL HEALING OF THE SKIN

A SCAB WILL FORM OVER THE NEXT 48 HOURS, THIS SHOULD BE LEFT TO DRY TILL THE SCAB DROPS OFF ON ITS OWN (OVER THE NEXT 10 DAYS)

IF THE AREA IS LIKELY TO RUB A PLASTER MAY BE APPLIED FOR A SHORT PERIOD OF TIME ENSURE AIR CAN CIRCULATE

CLIENT MUST NOT PICK THE SCAB OR (SCARRING MAY RESULT)

SPECIAL CARE MUST BE TAKEN NOT TO UPSET THE CAUTERISED AREA & TO AVOID INFECTION, APPLY A SMALL AMOUNT OF ANTISEPTIC CREAM TO THE AREA MORNING & NIGHT.

NO MAKE UP TO BE APPLIED UNTILL THE SCAB HAS FORMED ON THE TREATED AREA, DO NOT ALLOW WATER ON THE AREA UNTIL THE SCAB HAS DROPPED OFF

THE CLIENT SHOULD MAKE AN APPOINTMENT AT THE CLINIC BETWEEN THE TREATMENTS, IT ONLY TAKES A FEW MINUTES TO ENSURE NO INFECTION HAS OCCURRED

YOUR NEXT TREATMENT CAN BE DONE IN 14 DAYS TIME SHOULD YOU NEED ANOTHER ON THE SAME AREA

OVER THE NEXT 10 DAYS AVOID

EXTREME TEMPERATURES, MAKEUP ON TREATED AREA, CLEANSERS, TONERS, MOISTURISERS, HOT BATHS, SWIMMING, EXERCISE, BUBBLEBATH, SHAMPOO, HAIR SPRAY, PERFUMES etc, TOWELS, FLANNELS, BLOWS TO THE TREATED AREA
