

DERMAPLANING AFTERCARE

Your skin will be already feeling fantastic, however you may be feeling slightly itchy or have a slight stinging sensation for the first 24 hrs after treatment.

We advise not to wear make up for 48hrs after treatment for best result however guidelines recommend 24 hrs

On day 3-4 after treatment you will be amazed at your results.

Rinse skin gently (with water only) and pat dry/do not rub. Avoid harsh cleansers or washcloths.

Clients with hypersensitivity to the sun should take extra precautions to guard against exposure immediately following the procedure as there may be more sensitivity following the treatment.

Do not have any other facial treatment for at least two weeks after treatment.

Skincare Routine: When washing your face, use a gentle, approved cleanser.

Cease the use of exfoliating scrubs for at least one week after treatment.

Use a high factor sunscreen and avoid direct sunlight for at least one to two weeks post treatment.

You may resume the regular use of retinol, alpha-hydroxy acid (AHA) products or bleaching creams when your Aesthetician approves (generally 5-7 days).
